

Paws-itive Behavior

Our school has implemented a program for “Paws-itive” school wide behavior. The PAWS program allows students to demonstrate outstanding behavior. During the school year, faculty and staff hope that every child will receive a PAW through acting in a respectful, responsible, safe and prepared behavior.

Our class has been demonstrating great behavior not only in our room, but in other areas of the school and outside of the school. We hope that through the use of this program we can successful teach our students how to learn great citizenship skills and prevent bullying in our environment. Look for your child’s outstanding “Paws-itive” behavior at home!!!
