

Dear Parents,

Below, you will find a list of words that your kindergarten should mostly know by the end of the year. These words are reviewed daily and your child is responsible for knowing how to read and how to spell them. We have or will be introducing these words throughout our school year. I encourage you to review these words at home with your child. One of the many activities we do in our classroom is to find the word wall words in books and around our room. You can have your child look for these many words around your house. You can use them as flash cards or create your own word wall words. You could make a double set and play a memory game with your child. Be creative!

As the year continues and we add more words to our word wall that pertains to our writing.

As always, thank you for your continued support!  
Miss Ashley Bird
